

**FKNMS Marine Zoning & Regulatory Review
Coral Reef Ecosystem Restoration Working Group Meeting
Marathon Garden Club
Wednesday, March 13, 2013
DRAFT AGENDA**

Time	Topics	Lead
9:30	Welcome and Introductions <ul style="list-style-type: none"> • Administrative Announcements • Recap of last meeting • Update on progress of Shallow Water Wildlife and Habitat Protection working group • Review Agenda and Meeting Objectives 	Ken Nedimyer & Beth Dieveney
9:40	Presentation: Status of coral reef ecosystem restoration science, including criteria and monitoring considerations <u>Objective:</u> Working Group members have essential background information needed to better understand the complexity of restoration and how to consider this when developing management recommendations.	Bill Sharp
10:20	Break	
10:30	Discuss potential criteria to consider when identifying active restoration zones and when applying adaptive management (when to open a closed area, etc) <ul style="list-style-type: none"> • Criteria for identifying specific areas and zones for active restoration of coral reef ecosystem (Objective 1) • Criteria for opening area closed for restoration purposes (adaptive management measures) (Objective 3) • Criteria working group will consider when identifying and changing the management status (re-opening areas once closed for restoration purposes) of sites 	
11:45	Public Comment	
12:00	Lunch	
1:00	Exercise: identifying potential areas for active restoration that are aligned with criteria. <u>Objective:</u> Small group exercise to begin identifying specific areas for potential coral reef ecosystem restoration. This is not intended to identify final areas for recommendation but to simply begin working with the information the working group has produced to date and to help inform how the working group will do this exercise at the next meeting.	

2:30	<p>Discussion: Putting it all together</p> <p><u>Objective:</u> Develop a plan for next steps for working group to effectively evaluate, prioritize, and develop recommendations for the specific areas and zones for active restoration of coral reef ecosystem. To effectively do this at the next meeting:</p> <ul style="list-style-type: none"> • What additional information is needed (at the next meeting, in advance of the next meeting) • What other items need to be considered (invited guests, speakers, public, other?) • How would they like information presented at the meeting <p>Develop working group plan for next steps</p>	
3:00	Public Comment	
3:15	<p>Questions & Next Steps</p> <ul style="list-style-type: none"> • Review Action Items • Be prepared at the next meeting to: <ul style="list-style-type: none"> ○ Identify areas and options for active coral reef ecosystem restoration ○ Discuss management implications, including permitting, regulatory conditions, and potential adaptive management considerations. 	ALL
3:30	End Meeting –Next Working Group Meeting – April 3, 2013; Marathon Garden Club	ALL
