## Coffins Patch Sanctuary Preservation Area

Protects a tiered aggregate reef system with limited spur-and-groove development and one of the most prominent reef wall systems in the Florida Keys with some of the largest historic populations of ESA-listed staghorn, elkhorn, and pillar corals. This zone was originally designed to limit consumptive activities and separate users engaged in different activities.

### Middle Keys Region

This map contains proposed marine zone alternatives for public comment. Proposed marine zone alternatives do not reflect agency decision at this time. For more details about the proposed alternatives and zone descriptions, including associated regulations, see Section 3.3 and 3.4 of this DEIS.
